DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance: This invention deals with a sheath-core composite conductive fiber comprising a core component made of a fiber forming polymer containing carbon black characterized in that the core and sheath component having radius that satisfy the following relationship : $r/R \leq 0.03$, wherein R represents a radius of an inscribed circle of the sheath component and r represents the distance between the centers of the two inscribed circles of the core and the sheath components in a cross section of the fiber (claim 1). The above stated claim limitations, in combination with other claim limitations, is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

3. The drawings were received on August 25, 2003. These drawings are approved.
4. The case being allowed, the applicant is required to submit new formal drawings in response to this office action.

Response to Arguments

5. Applicant's arguments filed August 25, 2003 have been fully considered and they are persuasive. Specifically, the applicant's argument that none of the prior art of record, teach or suggest the core and sheath component having radius that satisfy the following relationship : $r/R \leq 0.03$, wherein R represents a radius of an inscribed circle of the sheath component and r represents the distance between the centers of the two inscribed circles of the core and the sheath components in a cross section of the fiber, is persuasive and therefore the claims have been allowed.
